

RheuMuseum

Myeloid/APC
(eg, dendritic cells)

Macrophage

Adaptive
lymphocytes
(eg, Th17 cells)

Innate lymphocytes
(eg, MAIT /yδ T cells)

TNF

TGF

Bone with
inflammation

Inflammation

Indicates directional flow

IL-23

P19 P40

IL-12

P35 P40

IL-1β

IL-18

IL-17A/A

IL-17F/F

ILC/MAIT/y T cell
activation
IL-7

Amplifies Th17
recruitment
CCL20

IL-22

Granulocytes
cytokines,
chemokines

Th1

Th17

Th22

Enhance T cell priming

Naïve T cells

Tc17

yδT

ILC3

Resident T cells

CD8 + T cells

Treg cells

Autoreactive T cells

Endothelial cells

Osteoclasts

Osteoblasts

Fibroblasts

Pericytes

Receptors

STATs

JAKs

TYK2

PDE4

cAMP

AMP

B cells

Monocytes

Chondrocytes

Mesenchymal stem cells

Spine

Inspired by patients.
Driven by science.
